Wife Slayer Had a New Love.

Gertrude Taylor Tells of Walter Goodwin's Awful Crime.

Another sensational feature has been added to the now celebrated murder case of Mrs. Walter E. Goodwin at Wellsboro, this state.

Gertrude Taylor, who is lodged in jail there, charged with being an accomplice of Goodwin in the murder of his wife, has made another startling confession to the District Attorney, in which she swears that Goodwin was accompanied by another man, unknown to her, on the night the murder was committed.

Two years ago Walter E. Goodwin, a prosperous farmer near the little hamlet of Charlestown, wooed and wedded Effie S. Copley, of Hills Creek, the belle of the township, a beautiful girl of twenty years. For six months their married life was happy, and then a separation came, caused by a quarrel with Goodwin's parents.

Goodwin became infatuated with young Gertrude Taylor, and his intimacy continued with her until both were landed behind prison bars.

Mrs. Goodwin instituted last week a suit for absolute divorce on the ground of non support.

Goodwin urged her to withdraw, but again she refused. On last Friday morning she received the letter from him which lured her to her death. It begged for an interview that evening. At 10 o'clock that night a carriage containing Walter Goodwin, Gertrude Taylor and the unknown drove up near the home of Farmer Beecher, where Mrs. Goodwin was staying. Goodwin and the other man alighted, the Taylor girl remaining in the wagon. Near the home Mrs. Goodwin was awaiting her husband and rose to meet him.

There was a quick struggle, as the unknown gagged the helpless woman, and then murder was committed. Four pistol reports were heard, and the murderers fled. On Saturday morning Mrs. Goodwin did not appear, but Mr. and Mrs. Beecher did not worry.

Late on Saturday afternoon, however, a farm boy saw a prostrate form in a clump of bushes near by, and discovered Mrs. Goodwin's body. Her face was smashed flat, and bullet holes were found in her head and over her heart.

The murder aroused intense excitement. Goodwin was arrested last week, and lodged in jail with Gertrude Taylor. Last Monday night Miss Taylor, who was only suspected, confessed that she had accompanied Goodwin in his drive to the Beecher homestead.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or diseases, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, and bladder remedy, is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention THE COLUMBIAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Send for a copy of Tasker's Beautiful Song "Gone Forever". The very latest. Pronounced by critics to be the prettiest song ever written. Price 20 cts. At music stores, or sent upon receipt of price by David J. Tasker, Bloomsburg, Pa. tf.

COUNCIL MEETING.

The regular monthly meeting of the town council was held Friday night with President Kocher and all the members except Supple present.

Building permits were asked for and granted, one to John Harman and one for J. W. Prosser for frame dwelling houses on Eighth street. They also asked that the sewer be put in on said street.

This was referred to the Town Engineer and Street Committee.

Friendship Fire Company asked Council to pay them the amount of the appropriation, one half of the annual sum, due them up to this time. On motion of Gorrey and Richard it was unanimously agreed to grant the request.

The Winona Hose Company asked for a place to house their hose apparatus, whereupon Rishton stated that the barn of J. C. Rutter, Jr., near Iron street, between Fourth and Fifth could be secured for \$2 per month. On motion duly seconded and carried the said barn was accepted.

The Light Committee were not yet ready to report as to an electric light on West First street.

Norman Fox asked Council to lower his taxes, saying that he was assessed double the amount of last year, that his occupation is that of a laborer whilst he is enrolled as a loom fixer. Referred to Finance Committee with power to act.

The Leonard street pavement matter, which has been before the Council numerous times, was taken up, and after a short discussion Richard moved that the pavements on said Leonard street be put down in a straight line with those in the Ralston addition, the gutters be cobbled and the property owners be notified to put down their respective pavements within thirty days, or suffer the usual penalty. Seconded by Rishton and unanimously carried. It is understood that M. I. Hennessy is to do a certain amount of grading and put in a box for carrying off the water at a point near his place on said street, in accordance with a former proposition made by him, free of charge.

As a result of a tour of inspection made by several of the Councilmen, the Street Committee through President Kocher reported numerous bad side walks and in many places none at all and the lack of crossings, &c., whereupon it was duly moved, seconded and carried that the property owners on or along streets as follows be notified to put down proper and safe pavements within thirty days or suffer the penalty provided for in such cases: Catharine street, Jefferson from Third to Sixth, Eighth, in front of Wesley & Smith's on West Second, at Whary's on West Third, along C. W. Neal's on Light Street road and on East Third, on First in front of Baptist Parsonage. In several of these places there are wooden walks in an unsafe condition, in which case the owners must take them up and replace them with proper material.

The Committee also recommended and it is so ordered that crossings be put in on Sixth street corner Jefferson, on Market and Sixth, on Eighth near Dr. Waller's, corner West and Third, East and Fifth and Eighth and Catharine. As to the crossings on East Fifth street the town will put same as soon as the property owners have all their pavements down.

Upon motion duly carried the B. & S. Railroad Company is to be notified to keep the guard rail along said company's track on Railroad street in a proper and safe condition. B. F. Zarr, Esq., appeared and complained of the bad condition of the Fifth street road from East out to the town line beyond Oak Grove, saying that in some seasons of the year the road is in an impassable condition, that said street has not had any attention for several years. He therefore requests Council to take action on the same at an early time. Referred to Street Committee.

It was decided to change the water course at Sixth and Strawberry Alley and at Sixth and Catharine streets and put in wooden boxes similar to those put in at corner Iron and Third.

It having been ascertained that a vitrified brick crossing over Market Street from J. L. Moyer's to the drinking fountain, could be put in cheap if not cheaper than stone, it was decided to go ahead with the brick, for which purpose a car of brick is to be ordered at once, on motion of Gorrey and Rishton.

President Kocher is authorized to make contract with a certain party recommended by Street Commissioner McKelvy, for cobbling stone at thirty cents per ton.

A petition numerously signed by residents of different sections of the Town was presented asking that East Fourth Street be opened and extended to a uniform width of fifty feet. Referred to Street Committee, they to examine and report at next meeting.

W. H. Cook and wife sent in a communication asking council to relay their pavement, repair wall under their porch and put in a couple new steps at their home corner West and Fourth streets, the same having been damaged or covered up by reason of

the Town changing the grade along said Fourth Street. Upon motion of Gorrey and Richard the matter is referred to the Street Committee with power to act, first ascertaining the price at which Mr. Cook thinks he can do the work.

Bids were received for the digging and filling in of the sewer ditch from Leonard Street up Fifth to near West, and from Fourth Street out Railroad to connect with sewer on Fifth, as follows:

Wm. B. Ferguson at 17 cents per lineal foot.

C. H. Morgan, \$176 for 1600 feet. Gideon Heist at 15 cents per foot, the Town to furnish pipe, cribbing and cement.

Samuel Neyhard at 14 cents per foot on Railroad Street.

This matter created a lengthy discussion which was participated in by all the members, some wanting the town to do the work and others wanted it done by contract. Finally Richard moved that the work be done by contract. Seconded by Gorrey and carried by the votes of Richard, Gorrey, Rishton and Kocher, those voting no being Hower and Kelley.

Richard then moved that the contract be given to C. H. Morgan if he gives a bond in the sum of \$350 within two days to complete the work by October 5th. If he can't comply then the contract be awarded to Samuel Neyhard, the next lowest bidder. This motion was seconded by Gorrey and unanimously carried.

In regard to the petition of certain physicians for privilege to ride their bicycles on the side walks between the hours of ten p. m. and six a. m. when the streets are too muddy or otherwise unfit, Rishton and Gorrey moved that the request be granted. A vote was taken and motion lost. Bills were presented and Secretary directed to insure orders for the same as follows:

- Curtis Robbins, work on gas pipe \$12 00
Geo. Yost, relaying pavement 29 40
S. Neyhard, sewer pipe work 104 00
B. F. Gardner, for stone 6 50
J. B. Hunt, for RR. ties 37 03
Harman & Hassert, crossing plates material, work, &c. 3 50
Moyer Bros., for cement 16 40
Peacock & Co., hardware 7 00
H. G. Sherwood, rent for hose house 90 84
Water Co., for water 400 00

W. L. Demaree, lumber 1 50
J. C. Rutter Jr., Notary Public 50 50
W. H. Snyder, " " 16 00
Bloomsburg Daily, printing 4 00
W. H. Henrie, Prothonotary 124 15
S. D. Neyhard, hauling cinder 2 50
John Corbett, policeman 5 50
F. P. Baum, " " 1 25
Geo. Shultz, " " 1 25
Alfred Bowen, " " 40 00
Arlington Shultz, " " 15 00
Freeze Quick, Secretary. 15 00
No further business appearing council adjourned.

A NEW BICYCLE.

Brooklyn Lawyer Invents a Wheel Geared to 250.

A mechanical surprise will be sprung, in all probability, on the cycling world within a few days, and all records for speed will go by the board if the present prospects of the new machine's capacity are realized. A well-known Brooklyn lawyer has invented a bicycle with a present gear of 250, and he is confident that he will see a mile close to the minute mark. Albert Schock, the well-known six-day champion, is the only rider of prominence who has seen the new bicycle, and is the only one, outside of the inventor, who has ridden it. Mr. Schock, who is a conservative man, said:—

"I have every belief in the new wheel and really expect that it will revolutionize the present bicycle. It is mechanically correct, and with a few minor alterations as to weight and gear, I believe the wheel will prove satisfactory. I was very busy in my store one day when a man walked in and introduced himself, stating that he had heard of my ability as a rider and wanted me to go and look at a new wheel he had invented. He took me to his office and there showed me what I consider will prove to be the speediest bicycle that has ever been invented. Its present gear is 250, but I advised 150 to 175, although I did not seem to have much more work propelling 250 gear than I did my 90 six-day gear. The speed that you get out of the new bicycle is simply terrific. The inventor is a rather small-sized man, and he tells me that he rode a half-mile in a trial I made on the bicycle path the other night I must have been traveling close to the minute mark. The only difficulty I experienced was in turning, and I think the very high gear is responsible for that.

"I had a private trial at Manhattan Beach at midnight Tuesday, and I am not at liberty to say what time I made. I might say that I had trouble at the turns, owing to the high rate of speed attained in the straight, but with a lower gear the inventor is now trying to get, I think it will be quite possible to do 1.30 without pace."

THE BROADWAY

To the Front

Is where you will always find us with our stock of house furnishings at the lowest possible prices. Goods bought and sold at the lowest cash prices is just what keeps us there. We lead this week with a new stock of

Enameled Steel and Tinware.

JONAS LONG'S SONS'

WEEKLY CHATS

WILKES-BARRE, PA.,

September 16th, 1897.

WE CORDIALLY INVITE THE LADIES OF THIS VICINITY TO ATTEND OUR

GRAND AUTUMN

OPENING AND EXHIBITION

OF Parisian Hats and Bonnets and Millinery Requisites.

TUESDAY, WEDNESDAY, THURSDAY,

September 21, 22, 23.

During the same days we will have on exhibition all the latest ideas in Silks, Dress Goods, Ladies' Mantles, Jackets, Cloaks and Capes. Also Misses' and Children's costumes.

The Grand Exhibition will be the most interesting event of the whole year.

The representative styles to be worn during the coming season, every one absolutely and faultlessly correct, will be shown in great profusion.

Pattern Hats and Bonnets, from the leading fashion centre of Paris, in designs exclusively controlled by our Millinery Department, will be given a place in the Grand Exhibition.

Our Dress Fabrics and Silks will present a picture worthy of special notice. Every conceivable weave from the plain flat surfaces to the most intricate designs of improved Jacquard looms and every known color, shade and combination of coloring will be spread before you in all its kaleidoscopic beauty.

OUR CLOAK DEPARTMENT.

Will present a scene unparalleled in the history of retail cloak selling. The rooms have been newly fitted up, and made as cosy and comfortable as possible, and our new buyer, who by the way is one of America's greatest cloak buyers, has surrounded himself with a class of goods never equalled in this city. This department now ranks with the leading metropolitan suit and cloak houses, and will present for your inspection garments especially designed and manufactured for our firm.

September 21, 22 and 23.

Three Gala Days in our Store's History.
